# VIGIL FIRE BLANKETS

The soft-pouch case keeps the medium fire blanket clean and protected, while the case itself is also wipeable, features clear instructions and includes an eyelet for wall hanging to make it easy to find in an emergency. Secured within the pouch using Velcro fastening, the fire blanket is easily released by simply pulling the tabs down. To use, unfold the blanket and then carefully place the blanket over the flames by holding the pull tabs.

All Vigil fire blankets are manufactured from a high-quality coated glass fibre material and are performance and quality tested in accordance with BS EN 1869:2019 by SGS Group, the world's leading testing, inspection and certification company. We believe our materials create one of the most effective fire blankets on the market. Plus, the 5-year warranty gives you peace of mind for years.
