VIGIL WHEELED FIRE EXTINGUISHER COVER

Our high-quality 19mm fire hose tubing is available in the standard 30-metre and 45-metre lengths and is compliant with EN694. Ideal for new installations or to replace damaged hosing on an existing hose reel, ours has a tough construction to ensure a long working life thanks to its rubber/PVC blended construction.

Our 30-metre 25mm fire hose tubing is ideal for new installations or to replace damaged hosing on an existing hose reel. Compliant with EN694, this fire hose has a tough construction to ensure a long working life thanks to its rubber/PVC blended construction.

Suitable for use with manual, automatic, fixed, and swinging hose reels of all makes. Designed to release large quantities of water in the event of emergencies.
