

LAYFLAT TYPE 3 FIRE HOSE

Data Sheet

FEATURES:

- Compliant with BS6391 Type 3
- Length: 18 or 23 metres
- Diameter: 45mm or 64mm
- Maximum working pressure 15 bar
- Average burst pressure 45 bar
- Weaved-polyester hose jacket and nitrile-blended rubber inner lining

LAYFLAT TYPE 3 FIRE HOSE

Our heavy-duty layflat type 3 fire hose is designed for the most-demanding environments offering high abrasion resistance and an extremely long service life. Complete with alloy couplings for UK fire service fittings, which are wired-on with rubber sleeves, the hose complies with BS 6391 Type 3. Available in two lengths – 18 metres and 23 metres – the former is available with a 45mm diameter while the latter comes with either 45mm or 64mm diameters.

Reinforced with a ribbed polyester jacket and nitrile-blended rubber inner lining, these are bonded together to provide better performance in abrasion resistance to prevent damage even when used in a demanding environment. While commonly designed for firefighting use, the multipurpose hose is commonly used on refineries and construction sites, in agriculture and irrigation, general industrial use and for all wash-down applications.

Manufactured for Vigil Products, the Type 3 layflat fire hose is flexible, kink resistant and easy to clean, with contact resistance to oil, fuel and chemical and a working pressure of 15 bar and burst pressure of 45 bar.

Product	Fire Hose Type 3 – 45mm & 23 metres	Fire Hose Type 3 – 64mm & 23 metres	Fire Hose Type 3 – 45mm & 18 metres
Product Code	VP-HT3-45-23	VP-HT3-64-23	VP-HT3-45-18
Dimensions (H x W x D)	109x445x492mm	142x484x492mm	118x429x440mm
Weight	9.96kg	14.1kg	8.26kg
Working Pressure	15 Bar	15 Bar	15 Bar
Testing Pressure	45 Bar	45 Bar	45 Bar
Length	23 metres	23 metres	18 metres
Diameter	45mm	64mm	45mm
Material	Polyester hose jacket and Nitrile/rubber blend inner lining	Polyester hose jacket and Nitrile/rubber blend inner lining	Polyester hose jacket and Nitrile/rubber blend inner lining
Carton Quantity	1	1	1
