VIGIL®

WATER ADDITIVE FIRE EXTINGUISHERS

Data Sheet

5 YEAR WARRANTY

VP–XTWA9

VP–XTWA6

FEATURES:

- 5–Year Warranty
- BS EN3 approved, UKCA Approved,
- CE Marked & BSI Kitemarked
- Wall bracket for included for mounting
- Effective against Class A fires involving paper and fabrics
- Temperature Range: +5˚C to +60˚C
- Supplied filled with water additive

WATER ADDITIVE FIRE EXTINGUISHERS

Water Additive Fire Extinguishers, available in 6 litre and 9 litre options, is a versatile and lightweight solution designed to combat Class A fires, which involve common combustible materials such as wood, paper, and textiles. Enhanced with a special additive, this extinguisher boasts an impressive fire ratings, significantly improving its firefighting effectiveness compared to standard water extinguishers. The inclusion of a spray nozzle ensures user safety by preventing accidental electrocution, even if inadvertently discharged on live electrical equipment.

For larger premises, the 9-litre Water Fire Extinguisher offers robust fire suppression capabilities with a 27A fire rating, exceeding the minimum 13A requirement for any floor in a building. This makes it ideal for environments such as shops, offices, schools, theatres, and warehouses. Like its 6-litre counterpart, it is equipped with an additive and a special aerating nozzle to enhance performance and ensure safety during use.

Product	6 litre Water Additive Fire Extinguisher	9 litre Water Additive Fire Extinguisher
Product Code	VP-XTWA6	VP-XTWA9
H x W x D	551x297x162mm	610x316x185mm
