# WET CHEMICAL FIRE EXTINGUISHERS

The Vigil 6-litre Wet Chemical Fire Extinguisher is the ideal solution for any commercial kitchen, specifically designed to tackle dangerous deep fat fryer fires, classified as Class F. Unlike other extinguisher types, which may worsen grease fires, this unit uses a potassium-based solution to rapidly extinguish flames, cool the burning oil, and create a protective seal that prevents re-ignition. This three-step action ensures maximum safety and minimises the risk of fire spreading.

Engineered for ease of use, the extinguisher features a gentle but highly effective spray that reduces the risk of hot oil splashing. The lance applicator allows users to combat flames from a safe distance, ensuring precision and control in high-risk kitchen environments. With a 75F fire rating, it is capable of handling fires in deep fat fryers up to 75 litres, making it a vital addition to professional kitchens, including restaurants, food trucks, and catering businesses.

Product	6 Litre Wet Chemical Extinguisher
Product Code	VP-XTWC6
H x W x D	553x252x162mm
Fire Rating	13A 75F
Warranty	5 Years
Capacity	6 Litres
Weight without Nozzle	9.68kg
Test Pressure Bar	29 Bar
Temperature Range	+5°C to +60°C
Operating Pressure	14 Bar
Approvals	CE Mark
Extinguishing Medium	Wet Chemical
Carton Quantity	1
Carton Weight	10.3kg
Carton Dimensions	565x165x165mm
Pallet Quantities	72
