PU FOAM IMPACT PROTECTORS

With four designs to choose from, the PU foam impact protectors are the perfect solution for warehouse environments where both people and machinery are at risk of collisions and injury. With high visibility yellow and black colours warning people on potential hazards, this absorbs impacts to prevent damage to equipment and injury to workers and visitors.

Easy to install thanks to the adhesive backing, these can be placed on a corner or over a protrusion for edge protection, or simply along a flat or curved surface for wall protection – choose the version which best suits your needs. All 1 metre in length, these are easy to cut down to your desired size using a sharp knife and can be used indoors and out.

Made from a durable polyurethane foam and manufactured for Vigil Products, the long-lasting surface and corner protector is also suitable for sharp edges and low ceilings to prevent scratches and bumps.

Product	PU Impact Protector – Rounded Corner	PU Impact Protector – Squared Corner
Product Code	VP-CIP-V4	VP-CIP-S4
H x W x D	1005x40x40mm	1005x60x40mm
Weight	0.3kg	0.32kg
Material	PU Foam	PU Foam
Colour	Yellow and Black	Yellow and Black
Carton Quantity	48	40
Carton Weight	13.02kg	13.14kg
Carton Dimensions	1050x260x220mm	1050x260x220mm

Product	PU Impact Protector – Circular Edge	PU Impact Protector – Flat Rectangle
Product Code	VP-CIP-C4	VP-CIP-R6
H x W x D	1005x60x40mm	1005x60x20mm
