DO9 JET SPRAY NOZZLE

The long pattern DO9 jet spray nozzle has a simple on and off function and by rotating the front bumper of the nozzle and select either jet or spray modes. With a 2 ½" instantaneous alloy male inlet (BS 336) for standard UK fixings, the bumper provides protection against accidental damage when dropped.

Suited to a wide range of Industrial applications including general purpose firefighting, wash-down, cooling and dust suppression, the low-maintenance DO9 long pattern jet spray nozzle is perfect for use with our range of layflat fire hoses. Manufactured from Vigil Products, the multipurpose nozzle has a maximum flow of 500 litres per minute with a throw of 26 metres in jet mode, or 590 litres per minute with a throw of 15 metres using the spray function at 100psi.

Product	DO9 Jet Spray Nozzle
Product Code	VP-FNDO9JS1
H x W x D	300x90x90mm
Weight	1.16kg
Compliance	BS336
Working Pressure	16 Bar
Tested Pressure	24 Bar
Material	Light aluminium
Carton Quantity	10
Carton Dimensions	220x370x370mm
Carton Weight	11.24kg
