STEEL BARRIER FENCING PINS – 10 PACK

These Budget Steel Fencing Pins crafted with 8mm steel are built to withstand most weather conditions, ensuring they remain strong and sturdy regardless of environmental conditions. Sold in packs of 10 pins for creating lengthy barriers, simply drive the pins into the ground with a hammer for a secure and rigid setup. When no longer needed, they can be just as easily removed, offering convenience for temporary installations.

Ideal for contractors and outdoor event organisers, these pins are perfect for creating safety fencing in various situations. Each pin includes a hook shape, and are suited for fun runs, fairs, fetes, and other public events, enhancing safety for everyone.

These pins work seamlessly with our Barrier Fencing, barrier tape, and hazard cone lamps, providing a complete and reliable barrier system.
