

# NiteSafe™ DUO +

RRP £21.95

The Duo + is a dual motion sensor and dusk to dawn nightlight allowing you to choose the very best setting for your chosen location.

The motion sensor activates the nightlight for about 20 seconds when movement is detected during hours of darkness.

The Dusk to Dawn nightlight is a dimmer light but when movement is detected the light brightens for about 20 seconds and then reverts back to the regular Dusk to Dawn light.

The bright 8 LED torch sits in a charging cradle plugged into the wall and is kept permanently charged by induction charging.

If the power fails, or you take the torch from its charging cradle it switches on automatically.

Unique Features: Dual Nightlights with Motion Sensor and Dusk to Dawn + Motion Sensor night light features.

- ✓ Modern design
- ✓ Dusk to dawn Nightlight
- ✓ Motion sensor Nightlight
- ✓ Bright torch
- ✓ Induction charging technology
- ✓ LEDs never need replacing
- ✓ Rechargeable Li-ion battery

Top flash light with 8 super bright LEDs.

The motion sensor automatically turns the nightlight on when movement is detected during hours of darkness. Sensor distance 3 to 4m.

Dual function Dusk to Dawn and Motion Sensor 4 LED Nightlight. Upside down the torch can be used as a Work Light/Task Light.

The 4-mode press button on the back allows you to choose between the multiple settings of the Duo +: Top 8 LEDs ON / Front 4 LEDs ON / 8 LED Flasher / Off.

Sitting in the induction charging cradle, you can be confident the torch is always charged and ready for use.
