

Product Specifications

FRED PA-1 Adult defibrillation pads with RFID Tag

- Adult defibrillation pads for use with the FRED PA-1 defibrillator
- Equipped with RFID tag to automatically detect their shelf-life - device indicates when pads require replacement
- Designed to always be connected to the defibrillator, ready for use when needed
- 2-year lifespan
- Single use only

The **FRED PA-1 Adult Defibrillation Pads** are sticky AED pads designed for use with the Schiller FRED PA-1 defibrillator. The pads are pre-connected to the defib to save time in an emergency. The embedded RFID (Radio-Frequency Identification) allows the defibrillator to identify when the pads have reached their expiration date. These pads carry a 2-year shelf life.
