REFLECTIVE FENCE STRIPS

Safety Barrier Fencing is an easy and low-cost solution to erecting a temporary barrier which is ideal for construction sites, gardening projects, and crowd control at events. The orange mesh, also available in blue, green and yellow colours, can be installed and removed quickly using our steel barrier fencing pins, helping to restrict access because of a hazard or where you simply don't want people walking.

Sold on compact rolls of 50 metres in length in all colours, you can cut it down to the desired size with ordinary scissors, and can then be held up securely in position using steel barrier fencing pins, available to purchase separately. Made of reusable plastic, mesh fencing is durable and weatherproof to withstand the demands of being on site, and is flexible to help create a cordon of any shape.

Plus, the highly-visible colours mean the barrier fencing will be hard for anyone to miss.
